

ultra-fine filter insert Opticlean MS-5

Part no. 20308

ultra-fine filter inserts Opticlean

benefits

- optimum ultra-fine filtering
- specially for small and very small burner capacities
- preferably for single-line mode

Description

The filter surface of Opticlean ultra-fine filters is up to 37 times greater than that of conventional filter inserts; they excel with an extremely high degree of filtration. Filter fineness of nominal 5 µm (absolute 20 µm) separation is possible. Even the smallest drops of water and emulsion are retained with high reliability. Opticlean filter cartridges can be used in any standard fuel oil filter, they are metal-free and can be recycled in an environmentally protective way.

Technical Specifications

Filter element
Paper

Mesh size
Opticlean MS-5
20 – 35 µm

Filter surface
Opticlean MS-5
500 cm²
