Application

Designed for flue gas measurements at oil, gas and pellets fired systems as well as for tightness tests at gas lines, for checking the connection pressure/flow pressure and the pressure loss. TÜV-tested measurements as per 1st and 44th BImSchV (German Federal Immission Act) can be performed reliably and intuitively. Fast and easy Bluetooth® connection to more than 35 sensor modules and sets of the AFRISO CAPBs® make EUROLYZER® S1 the central controller for all HVAC tasks.
