“Our competitive edge has eroded in every domain of warfare ... *air, land, sea, space, and cyberspace* ... and it is continually eroding.”

- Former Secretary of Defense James Mattis  
Presenting the 2018 National Defense Strategy

“The department's central challenge is to **balance** current requirements with the needs of the future ... to get this balance right, we need to make tough decisions.”

*- Secretary of Defense Mark Esper*

A photograph of Lt Gen (ret) Loren Reno, USAF, in his military uniform, smiling and interacting with a group of military personnel. He is wearing glasses and has a name tag that reads "RENO". The background shows several other people in military uniforms, some looking towards him. The lighting is soft, and the overall tone is professional and positive.

“The best compliment a logistician can receive is that logistics did not inhibit operations.”
