¹ All data in this document (except where otherwise specified) are 2 year averages from Longwoods International 2013 and 2014 TravelUSA® data.

² A day trip is any journey more than 50 miles from home, for business or pleasure, outside your community, not part of your normal routine and that did not include an overnight stay.

³ Overnight trips are defined as any journey for business or pleasure, outside your community and not part of a normal routine, where one or more nights were spent away from home. For this category New Mexico has a 1.1% national market share.

⁴ Spring (March, April, May); Summer (June, July, August); Fall (September, October, November); Winter (December, January, February)

⁵ For the purposes of this table, business and business/leisure trips were combined.

* These can total more than 100%
